

SUPPORT FOR THE AMENDMENTS

Newly-added Claims 53-70 are supported by the specification and the original claims. Accordingly, no new matter is believed to have been added to the present application by the amendments submitted above.

REMARKS

Claims 53-70 are pending. Favorable reconsideration is respectfully requested.

Applicants would like to thank Examiner Shiao for the helpful and courteous discussion held with their representative on November 15, 2007. During the discussion, amendments to the claims were discussed to place the application in condition for allowance. The following remarks expand on the discussion with the Examiner.

Regarding the Restriction Response, the claims are believed to read on the elected subject matter.

The rejections of the claims under 35 U.S.C. §112, first and second paragraph, are believed to be obviated by the amendment submitted above. Accordingly, withdrawal of these grounds of rejection is respectfully requested.

The obviousness-type double patenting rejection over the claims of application serial No. 10/561,838 is respectfully traversed. The claims as amended in the present application are patentably distinct from the claims of the '838 application. Accordingly, withdrawal of this ground of rejection is respectfully requested.

Applicants submit that the present application is in condition for allowance. Early notice to this effect is earnestly solicited.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
